

MISSION 2: ENERGY GRID

Subsystem: Energy Monitoring Station

Location: Energy Production District

Greenvale's energy system is unstable. High-emission sources remain dominant.

Carbon emissions continue to rise.

Restore the correct environmental impact ranking.

Your task:

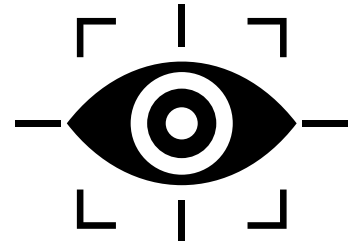

Use the Energy Source Cards.

Select the 4 relevant energy sources.

Arrange them from highest to lowest environmental impact.

Turn selected cards over.

Read left to right.

Co-funded by
the European Union
